ONLY 1 at this price.

All Sales Final. Wire Transfer Only.

The BMG 555 PRO Grinder Polisher " , single phase 230V planetary grinder has been designed for the middle size grinder market and has some new features not found on other grinders in its class

BMG 555 is a triple disc grinder designed for horizontal surface preparation in applications for a wide range of sizes. This is an ideal machine for the removal of coatings, concrete grinding and polishing applications. The BMG 555 uses a 3 in diameter dust hose connection and a floating shroud to manage dust more efficiently, for a safer work environment. A smart easy-to-use control screen gives the operator useful information such as amperage draw, true in line voltage RPM and direction indication.
