ODOR ELIMINATOR

Our most popular and most powerful water based odor neutralizer is a multidimensional odor neutralizer with the chemistry to dissolve, absorb, encapsulate and neutralize odors. The answer to severe odor problems and excellent treatment for pet urine. Can be used by direct spray, injection, wet fogging, or as an additive to cleaning solution.

Usage: For tough jobs (urine, dead body, etc.) Apply full strength directly to odor source. For best results pre-treat odorous area with UPT+ and clean thoroughly prior to application. For general use (mildew, smoke, etc) dilute up to 20 to 1 as dictated by the severity of the odor problem. Apply Odor Eliminator liberally to surface being treated using pump sprayer and coarse droplets.
