Product Description

WS 482 HF is a very powerful wall saw for cutting reinforced concrete, brick and other building materials, up to 29 in. thickness. The water-cooled electric motor has an unbeatable power-to-weight ratio. This wall saw can be used for all kinds of openings and sawing including stair, bevel and flush cutting. It's easy to assemble, run and transport making your job more comfortable and faster. WS 482 HF can be combined with CS 10, transforming it into a perfect wire saw.

Highly efficient wall saws for heavy concrete cutting

Husqvarna wall saws are equipped with powerful high-frequency electric motors, making them capable of sawing large openings in heavily reinforced concrete walls with a maximum sawing depth of 28 in (730 mm) from one side.

Typical applications for these wall cutting machines include sawing of door and window openings and dismantling of walls, concrete beams and staircases - both indoors and outdoors. Choose your ideal size of wall saw - Large WS 482 HF, Medium WS 442/440 HF, or Small WS 220.

Demo / refurbished / blemished means: might have blemish, scratch, rust, or dent, used at a trade show, tested in the showroom by a customer, last years model, return

by shipping company, returned by customer, used by factory for R&D work, no factory box. Limited stock so if you purchase it and we cannot fill the order because another customer beat you to the bargain, your money will be returned. Please do not call to see if it is still available as if the web page is up and viewable, it is available this second. If you delayed and asked if it available so you let some other customer place the order ahead of you. All sales are final. Same factory warranty as brand new: 1 years parts / 1000 hours!

Condition of this machine: "A" Only 1 at this price!

Our demo equipment usually has less than 100 hours on it.
