Manufacturer: KleenRite

KleenRite 20025 High Pressure Upholstery Cleaning Wand Tool above 100 PSI

*** Built to order, expect over 30 days to receive ***

Description
The KleenRite Upholstery Tool is designed to operate at high pressures (100 PSI and up) and can be used with truck mounts or portables.

It has a 3-inch wide head, five feet of vacuum hose, an internal solution hose and in-line solution filter screen. Sold without quick couplers, this state-of-the-art tool interfaces with other cleaning equipment to achieve professional results!

KleenRite tools offer these benefits: three vacuum chambers for gentle agitation (cleans without over-scrubbing), a rounded leading edge so the operator can clean in both directions without snags, an insulated grip, enclosed fittings and solution hoses engineered to prevent burns.

A full, 360-degree swivel allows you to access hard-to-reach areas so you experience a reduction in fatigue. Use wet or dry cleaning chemicals in this versatile upholstery wand. An inline filtering system traps sediment and contaminants before they can reach and clog the valve and tip.
