Husqvarna 967855201, LG 204 AC Soil And Asphalt Compaction Machine, Compactors Honda, 500mm, GTIN 805544670852

Manufacturer: Husqvarna Equipment

Husqvarna 967855201 LG 204 AC Soil And Asphalt Compaction Machine Compactors Honda 500 mm

Description

LG 204 is a compact, lightweight yet powerful reversible plate compactor developed for smaller jobs, such as driveways and pathways, private house projects and narrow trenches. It is the ideal machine to use when macadam beds are thinner and you need nimble, responsive handling. The Honda GX200 petrol engine reduces fuel consumption and emissions, while quality components reduce vibrations. It is equipped with a durable Hardox 400-steel bottom plate.

Features

Plates made to last

The plates are made from the extremely durable and wear-resistant Hardox 400 steel.

The special design keeps rocks from getting stuck between the plate and frame.

Strong protection, easy transportation

The heavy-duty steel frame protects the engine and transmission. The frame is also equipped with a lifting eye for easy transportation.

Low handle vibration levels

Great engineering and quality components minimise handle vibration levels and strain, therefore contributing to a safer, more productive and enjoyable workday.

Easy operation

The forward/reverse lever and fixed handle grip make handling easy on all surfaces. You don't have to push/pull constantly during operation.
