Husqvarna 967664101, T 7500 Hepa Dust and Slurry Management Extractor 230V, GTIN 805544261678

Manufacturer: Husqvarna Equipment

Husqvarna 967664101 T 7500 Hepa Dust and Slurry Management Extractor 230V

Description

T 7500 is an effective industrial dust extractor to match the grinding machines Husqvarna PG 820, PG 680 and PG 400 (3-phase) as well as shavers, shot blasters and saws. Ideal for heavy-duty work and exacting demands on dust extraction. T 7500 is equipped with a quiet, yet powerful turbine motor delivering exceptional airflow. The machine can deal with materials that are difficult to handle, such as grinding dust and demolition materials in a wide variety of applications. Has a reliable filter system with high collecting efficiency and a long filter life, and can deal with large quantities of fine dust. Comes with two oversized tested and certified HEPA class H13 filters and sock-style pre-filters providing nonstop grinding and a long service life. The pre-filters can be cleaned from outside of the tank via Jet Pulse negative air pressure. The Longopac® bag hose system ensures simple, dust-free bag changes.

Features

- Efficient filtration system
- Easy and efficient filter cleaning
- Durable design
- Excellent stability and mobility
- High Efficiency Particulate Air filter
- Easy-to-read airflow monitoring
- Clean and simple bag change
- For demanding industrial applications
- Control

Specification

Phases

3 ph

>

Voltage

230 V

Max. vacuum

280 mbar

Rated input power

10.1 hp

Air Flow

600 m³/h

Water Lift

110 in

Primary filtration area

5.65 m²
