Description

If you liked the original Gum Getter, you'll love the Xtreme G2. The Xtreme G2 is the new standard in spotting and is likely to replace all other spotting tools previously introduced.

Xtremely ergonomic and user friendly, the G2 fits into your palm better than other tools and has a comfortable thumb rest for control as well as effortless agitation. The Xtreme G2 is impervious to reactions from solvents, oxidizers, reducers and other spotting agents and is Xtremely durable for long life.

Serrated on the bottom and pointed on the back makes the G2 Xtremely versatile.

The serrated edge works aggressively on gum, wax and other hardened foreign matter while the pointed end allows you to agitate your spotting agent into the affected area without damaging fibers
