Model Number: PSS150-574150-202

Winco PSS150 Housed Sound Packed 150KW Natural Gas Standby Generator
PSS150-574150-202

Manufacturer: Winco Generators

Winco PSS150 Housed 150KW Natural Gas Standby Generator

Includes:

Sound Pak Housing 574-150-202

Controller DSE7310 MKII

A powerful, new generation auto start genset control module with a highly sophisticated level of new features and functions, presented in the usual DSE user-friendly format.

Product Features

Customer built in the following voltage configurations

120/208v Three Phase, item V-04

120/240v Single Phase, item V-03

120/240v Three Phase, item V-17

277/480v Three Phase, item V-18

347/600v Three Phase, item V-21

PSS150/A

Our PSS150 standby generator is a perfect for many different power needs.

This unit can run on LP or natural gas. It is not unreasonable to expect 20-30+ years of service from a well-maintained unit like this.

PSI 8.8L Industrial Engine

Engines that don't compromise power or performance.

The 8-cylinder, overhead valve engine meets EPA/CARB emission regulations.

Stamford Generator End

Industrial grade generator ends predominantly used for standby applications. These alternators are very versatile for more demanding and challenging applications.

Adjustable Circuit Breaker

Adjusts for switching between voltages.

Battery Charger

Factory installed 3 stage, 2-5 Amp battery charger.

Block Heater

In-line Hotstart, 120V, block heater with thermostat.

DSE7310 MKII

The DSE7310 MKII is a powerful, new generation auto start genset control module with a highly sophisticated level of new features and functions, presented in the usual DSE user-friendly format.

>

Galvanealed Steel Weather Enclosure

Our weather enclosures provide sound reduction while our powder coat paint provides a durable, long lasting finish.

100% Load Tested

We load test every generator before it leaves our factory.

Optional

Transfer Switches

At WINCO, we are experts when it comes to recommending the best transfer switch to suit your needs. (Cost is usually 10 - 20% of the cost of generator)

SKU PMG Optional Permanent Magnet Generator \$1680
