Pumptec 801903 112T Water Pump With M8235 Motor 120Volt 200Psi 80134 Bundle 9019 Regulator GTIN 10679065070494

The plunger type design of the 112 is the most effificient way possible to pressurize water. PUMPTEC™ effificiency produces up to 20% more pressure of flow for a given power input compared to some competitors’ pumps.
MAINTENANCE & SIMPLICITY
Factory lubricated for maintenance free performance. The only tool needed to completely disassemble the pump to its basic components is a simple hex wrench.
DURABILITY
Durability results from exclusive use of premium materials. All metallic wetted parts (except body) are stainless steel or chemically resistant plastic. The plastic pump body is nearly indestructible compared to pumps made of castings. Precision molded plastic body offers chemical compatibility with a wide variety of chemicals.
VERSATILITY
Flow and pressure can be optimized to exactly match power input to nozzle size by customer selection of the precise eccentric offset.
Specifcation
Pump Body: Teflon hard coated Aluminum
Plunger: 304SS
Seals Teflon blend
Elastomers: Viton
Volt: 120
Amp: 1.5
PSI: 200
GPM: 0.89
Temperature: 120°F
RPM(Max): 2400
Inlet: 1/4 F NPT(2)
Outlet: 1/4 F NPT(2)
Weight: 10 lbs

112V Pump Service Manual
Cross Reference skus
