Description

The ROS1300 is a ride-on sweeper that extends the Viper product portfolio into large-area sweeping. Improving our competitiveness, and supporting our large-area scrubber, the AS1050R. The ROS1300 is built on the same foundation as our other Viper products. Simple, rugged and affordable.
Sweeping large areas is a tough job, but the Viper ROS1300 is a ride-on sweeper designed to keep you productive from start to finish. Cover the area you need swept with long battery run time, and see great results from optimal dust and debris collection. Take a seat, adjust it to your personal preference, and press the One-Touch button to get straight to work.This conveniently starts all the main functions - main broom, side brooms, and vacuum fan - all at once. As you're sweeping, several standout features help contribute to your productivity. Dust is not a problem with the dust control misting system spraying over the side brooms. A convenient foot pedal lifts the front flap to allow the sweeping of larger debris, and powerful rear-wheel drive keeps you sweeping up slopes - great for sweeping on ramps and inclines within your facility. Tool free maintenance means your operator won't be burdened by the routine maintenance of the ROS1300, and can stay sweeping longer. And since the ROS1300 is built for all-around safety, the operator can stay productive while maintaining a safer working environment for everyone.
