Description

Part of the silver series of blades, the Vari-Cut S85 is specially designed with wider slots for the improved cutting of asphalt, green concrete and other very abrasive applications. The blade features a protection segment that prevents undercutting.

Features

- Clear visual indicators shows the blade's side clearance, a life indicator for when it's time to change the blade, cutting depth and blade wear. An arrow shows the direction of the blade and uses a colour that corresponds with the application.
- The protection segments help resist the abrasive working conditions and extend the the blade's life, even in the toughest conditions.
- Optimised for cutting asphalt and abrasive materials.
