Description
The KM 170/600 R D Classic is a diesel-powered, fully hydraulic industrial ride-on sweeper with four-wheel drive, and is engineered for heavy-duty jobs in the building materials and metal-working industries, foundries, construction sites and other dirt-intensive sectors. Its direct throw sweeping and main floating brush provide excellent cleaning results of rough swept materials and large amounts of fine dust. Two horizontally installed flat pleated filters not only ensure clean air under heavy dust conditions, but are also automatically cleaned every 10 minutes. This sweeper is robust, easy to maintain, intuitive for operators, and it complies with the new EU Stage V and EPA Tier 4 final emission standards - making it a powerful force for industrial cleaning.
Features

• Simple and intuitive operation via levers and few switches for short operator learning times and machine downtimes

• Simple maintenance, easy-access service points and tool-free changing of main brush

• This machine doubles the lifetime of your filters - with automatic filter cleaning occurring every 10 minutes

• Filters are simple to change - without tools, protecting the operator and the environment

• Sweeper complies with the new EU stage V, as well as, EPA Tier 4 final emission standards.

• Economic sweeping for the largest surfaces with a 158 gallon waste container and a 5 foot hydraulic container lift

• Maximum area performance of 238,800 ft2/hr due to a 67" cleaning width, 8.7 mph and 18% climbing ability

• Long machine lifetime with a robust steel chassis, multi-corrosion protection and
