Clean Storm 20240526, 12 ft Dryer Vent Cleaning Air Hose System, Spinning Whips Reverse Blow Blast w/ Ball Control Air Valve

Manufacturer: Clean Storm

Clean Storm 12 ft Dryer Vent Cleaning Air Hose System Spinning Whips with Reverse Blow Blast 20240526 (w/ Ball Control Valve)

<https://youtube.com/shorts/S3MFUjyp0L8?si=FJZ5qtxChQWxJE1U>

Great control system for using skipper balls and air whips. Works especially well for cleaning dryer vents and flex. Air attachments do not use harsh brushes or rough materials that may damage venting, so you can clean, worry free. Ball valve air control valve lets you control the RPM and torque of the spinning whips.

>

Includes:

-Standard, Brass Ball Valve w/ 90 degree turn open/close.

-1/4 in male air hose QD to allow attachment to standard air hoses and air compressors. QD is removable to allow adaptation to larger size hoses, if needed. Thread size going into ball valve 1/4 in Mip.

-12 foot simi rigid hose, allowing for easy pushing through vents, yet flexible to make a turn / bend.

-1/8 in female QD. Works with most standard skipper ball and air duct cleaning whip attachments with no adaptation needed (see video below.)  
Special pressure release design makes attachments less likely to be lost inside vents, like with standard QD's.

Air pressure and Air CFM make the whips spin.

Air Pressure and Air CFM blow backward off the Aluminum ball to blow back all the lose dryer lint.

Ball valve air control can be used to adjust speed and torque of whips.

All additional attachments extra. Can be used with all Heat Seal, Clean Storm, and Nikro branded attachments.

Bundle includes 1

Heat Seal Equipment SS18 Scorpion Reverse Blast Spinning Brush 4 to 6 inches
